Name of Candidate

Chris Moffatt

Position

V.P Sports

Personal Statement;

I am a 2nd Year Chemist and sports sec in the chemistry society. Along with this I am V.P media and marketing for the Ski and Snowboard Club. I regularly race and train for the 1st IV University Snowboard Team, where we are Bucs national champions this year. I train for the trampoline club 3 days a week, and any spare time is spent working or socialising. Where I've been given the chance to do all this I've seen others let the opportunity pass. I have the driving passion which enables me to do the job of V.P Sports and Recreation.

'Why you should vote for me'

I have been heavily involved in sport throughout my university career from all perspectives and understand what is needed for a club to function successfully. Although weekly meetings and a dedicated committee certainly help things along a strong link is needed between clubs and the Union to assure appropriate decisions can be taken when problems do occur.

I stand for

- **Greater Participation**
- **Winning Clubs**
- **Healthy Living**

'What I will achieve next year'

I will open sports to all abilities by having a larger number of teams in a club as well as encouraging the social side of sports and inter team communication, help, as well as fund raising and charity events. I will provide greater support to our elite sports program by looking into better coaching as well as financial support where it's needed. I will get societies interested in sports by developing competitions between societies and working with the V.P societies to enhance "Give it a go" to incorporate societies trying new sports. Modern sports programs for students, size building or weight loss diet plans and exercise regimes including motivation for healthier living. I will establish a minibus donation scheme where for instance a club can receive a donation of sorts for providing a minibus driver to another club.
